The New York supreme court has decided that "mental anguish" is not a sufficient cause for divorce.

Some man missed a good wife when Susan B. Anthony remained single. She says she would treat a husband firmly but humanely.

Once in a while a British paper perpetrates an international joke. One Scotch paper suggests that the university should confer upon Mr. Carnegie the degree of *£ £ D.*

Heat, drought and strikes are hard to endure and another burden has just been added in the announcement that Great Britain's tennis team will not be sent over this year for an international match.

If anybody has any doubt coming to him about this star spangled banner republic being about the hottest thing on earth, all he has to do is to look at the temperature reports for this month. Power effete old England could only show 52 in London when Chicago had 102.

Gomez says that Cuba wants to try it alone for a while just to get the feel of the thing; then it will come and ask to be let in. Possibly Gomez is only joshing, but if he isn't he will find that the sugar trust will have something to say first.

A little girl in Paterson, N. J., wanted five hundred dollars compensation for one kiss, illegally and feloniously abstracted when she was not looking, and the court, being ungallant and doubtless forgetful of the value of stolen kisses, only awarded her five dollars.

The PROSECUTOR is in receipt of the New Century Souvenir Edition of the Graham Guardian. It is a handsome illustrated edition containing a mine of information of the varied resources of Graham county. The enterprise of the Guardian will redound much to the benefit of its home county.

The British government is still buying American mules for military use in South Africa. It may be bad for the Boers and our farmers may not like the idea of furnishing supplies to be used against the poor Boers, but human nature is human nature the world over and when a good price is offered for our mules, why, we sell 'em, don't you know.

W. H. Eichelberger, a former resident of Arizona, died last week in the hospital at San Bernardino, California, of screw worms in his head. While living in southern Arizona a dozen years ago when sleeping on the desert he became afflicted the same way and came near dying.

A Santa Barbara man has made a complaint to the mayor and city council against the railroad company because of the blowing of the locomotive whistles during the night. Tombstone will offer no kick if the railroad will come this way.

The Star says the million gallon tank at Tucson, is about one third filled with oil. It takes a day to unload 16 cars of 6,500 gallons capacity. One of these cars emptied into the tank will raise the oil just as much higher.

Wm. D. Monmonier came in today from Pearce. Mr. Monmonier has recently returned from Buffalo where he represented Arizona at the Supreme lodge session of the K. of P. While at the exposition city he viewed the Pan-American exhibit, and enjoyed

Importations of Mexican cattle into this country for June were 15,045 head, the second largest number for one month this year. The movement is a liberal one, but about 9,000 smaller than for May and 2,700 lighter than in June of last year. All were imported for grazing, except 101 head for immediate slaughter and 46 head for exhibition purposes.

BISBEE JOTTINGS

BISBEE, July 20, 1901.
COPPERINGS.

S. C. Perrin has returned to Tombstone.

C. A. Overlock, the Douglas postmaster, returned yesterday after spending a few days in Bisbee.

L. A. Brown of the new England Kitchen left for Tucson this morning on business.

Owing to the heavy rains in northern Sonora the San Pedro river is running very high.

At the Hayseed ball, the prizes for the best looking hayseeds were captured by Miss Lily Burr and Frank Casaway.

The first carload of brick for the new post office have arrived and the masons will commence work tomorrow on the new building. It is expected that the building will be ready for occupancy by October 1st.

Mrs. J. Lefebre was brought here yesterday from the San Pedro river, suffering from a gun shot wound in her left side. Mr. Lefebre accidentally dropped his gun which went off, the bullet striking Mrs. Lefebre in the left side, just about an inch below the heart. Dr. Edmundson, who is attending the case, expects no serious results from the wound.

A most distressing and sorrowful accident occurred yesterday to the five-year-old daughter of Mr. and Mrs. Morrow who was killed by falling from a transfer wagon on the way to the depot. It appears that Mrs. Morrow, with two children, were in the wagon, and when turning the corner of the company hay warehouse, the wagon having come in contact with a rock, the little one was jerked from its mother's grasp and fell under the wheel, which passed over its head killing her instantaneously. The little child had been sick for some time and it was the intention of her mother to take her to Lordsburg for a change for the benefit of her health when the sad accident occurred. The shock to Mrs. Morrow was very great, so much so, that it was feared for some time that she would not survive it, but last evening she was much calmer. The sympathy of the entire community is extended to the grief-stricken parents in their sad misfortune. The little child was buried this afternoon.

Bisbee, July 23, 1901
COPPERINGS.

Ed M. Black of Nogales is a Bisbee visitor.

Alfred Paul returned last evening after a three weeks visit east.

D. C. McCullar, of Douglas, who was charged with resisting and abusing an officer, was dismissed.

Constable Doyle returned this afternoon from Tombstone where he went with a prisoner.

Road Overseer Graham now has about fourteen prisoners working on the roads.

Supervisor Geo. Reay returned from Tombstone today, where he has been sitting as a member of the board of equalization.

The round house and machine shops will shortly be removed from here to Douglas.

Young Ford, who was sentenced to the reform school, left this morning for Santa Fe, where he will be placed in the brother's school at that place.

Frank and C. F. Nichols returned yesterday from Texas, where they have been visiting their old home.

The rain seems to be playing hide and seek with us. Heavy rains have fallen all around us but we only get a sprinkling and that is worse than none at all as it has an effect upon our garbage heaps which is simply indescribable.

The Big Adobe saloon at Naco is out \$800 in Mexican silver and \$40 in American money. At about 2 o'clock this morning, just as Dave Crockett, who deals the game, had placed the money in a sack and laid it on the bar for the bartender to put it into the safe, a stranger walked in and seized the bag at the same time pointing a six-shooter at Dave and remarking, "I'll take care of this." He then threw the sack over his shoulder, backed towards the door, while doing so two shots were fired at him and he fired one in return but no one was hurt, he then mounted his horse and rode away towards Douglas. He wore no mask and had been staying in Naco three or four days.

BISBEE, July 23, 1901
COPPERINGS.

Bert Mossman has returned from his three week's trip to the northern part of the territory.

L. J. Overlock left for Washington He has a brother in that state with whom he will make a long stay.

N. E. Ferguson of the Bisbee Drug store left for Los Angeles yesterday.

Miss Lily Burr is gone on a visit to Mrs. James Herrick at Fairbank.

Surveyor J. A. Rockfellow was a visitor yesterday on his way home to Tombstone. He has been out to the San Bernardino ranch where he has been making a survey of that grant.

It has been raining very heavily between here and Douglas this afternoon, and those who came from there report that the country is covered with vast sheets of water.

The ball game played at Douglas yesterday between the Miner's nine and the Bisbee nine, resulted 10 to 8 in favor of the latter. About 300 took advantage of the excursion rate and went to Douglas to see the game and look over the new border town.

The Southern Pacific surveyors were surveying down the canyon Saturday and reached as far up as the Bisbee Mercantile store, which would make it appear that the S. P. company are determined to enter Bisbee. The store mentioned is the nearest approach to the city proper which they can make to the city proper, owing to the fact that the ground between belongs to the Copper Queen.

It was reported on the streets yesterday that an accident had occurred at the Cannones, whereby two men were killed and one seriously injured. It is said three men were being hoisted out of the shaft when the rope broke. They were about fifty feet from the bottom of the shaft when the accident occurred. The names of the men and particulars have not yet been received.

NEW IMPROVEMENTS

The S. P. Co. Putting In a New Steel Bridge at Fairbanks

The Southern Pacific is doing some extensive work at Fairbank just at present. A new steel bridge is being put in at a point near Kinball's grave to replace the wooden structure now there. To make the desired improvement the company will be obliged to sink their tracks and in some places the track will be six feet lower than heretofore. To accomplish this, grading and leveling will be necessary for nearly two miles. At present there is a force of over 100 railroad graders at work and as a consequence Fairbank is enjoying a period of prosperity. The new bridge will be a large substantial steel affair and of the same order as the other steel bridges on the road which are replacing the old ones. Several other steel bridges are to be installed between Fairbank and Nogales and the dangers of wash-out will be reduced to a minimum.

A BIG PROPERTY

Some Interesting Figures of the Greene Copper Co

From J. L. Maters, who has just arrived from the Cannones, the PROSECUTOR learns that there are 1,800 men on the pay roll of the Greene Consolidated Co. The pay roll foots up quite an amount monthly and is variously estimated from \$125,000 to \$150,000. The production of the works is in the neighborhood of 2,000,000 pounds of copper monthly. The plant at present consists of two large furnaces, but three others of equal size are being installed, which will increase the treatment to 1,300 tons of ore daily. Mr. Maters believes the Greene Company is or will be one of the largest copper producing properties in the United States. The railroad from Naco to the mines is expected to be completed within this year and trains running by January first. Some ten miles of the road is already built and work is being crowded ahead. It is expected the S. P. company will connect at Naco and continue the line via Tombstone to Cochise.

LEVI STRAUSS & CO'S SPRING BOTTOM PANTS

THE OBLIGATIONS

A New Ceremony to Secure a Partner for Life.

An exchange prints the following marriage ceremony which was said by a Tennessee squire a short time ago: "Wilt thou take her for thy pard; for better or worse; to have to hold; to fondly guard till hauled off in a hearse? wilt thou let her have her way: consult her many wishes, make the fire every day and help her wash the dishes? Wilt thou comfort and support her father and mother, Aunt Jemima, Uncle John and three sisters and a brother?" His face grew pale and blank; it was too late to jilt; as through the floor he sank, he meekly said, "I wilt."

COLONIZING ARIZONA

Plenty of Rich Land Open to Settlement.

The colonization of the lands along the Colorado river is a proposition the fulfillment of which is earnestly desired by the people of that country. There are thousands of acres of the richest land on earth along the river banks that can readily be brought under irrigation where community of interest is established by putting in a large irrigating plant. In the valley of the Colorado, near Fort Mohave, there are 50,000 acres of very rich lands that can be irrigated by current wheels, which cost but little. A colony with a small amount of money each can put in an irrigating works that once installed would create no further expense.

WAS THE MAN.

Mexican Wanted in Maricopa County Captured Here

Yesterday Sheriff S. S. Stout of Maricopa County arrived in Tombstone to identify a Mexican arrested a few days since at Johnson by Sheriff Del Lewis and wanted on charge of horse-stealing. Sheriff Stout identified the prisoner as the man wanted and left with him for Phoenix. The Mexican while arrested under charge of horse-stealing, is really wanted for stealing a mule, also a bicycle. The latter he sold shortly after purloining same at Phoenix and to the mule he trusted in making his escape out of the country, but as he was hardpressed by the officers and the mule was not extra fleet footed, he turned his mule-ship loose on the prairie and eluding the officers by hiding, finally drifted by rail to Johnson in this county. Descriptions were sent out and the prisoner was overhauled and now doubtless thinks the ways of the transgressor is hard.

A singular accident occurred between Prescott and Lynx creek. A six horse freight team drawing two wagons, the trail wagon being empty, as was going down a hill, the tongue of the trailer became detached, dropping to the ground, throwing the wagon high in the air and coming down bottom side up. A man named Troy who was lying down in the trail wagon was thrown about twenty feet in the air and in alighting he was badly bruised and was brought to the hospital for repairs.

The Chicago Record which reached here yesterday, says: "Postmaster Coyne yesterday announced the appointment of Paul Hull, a former newspaper reporter, as his private secretary. A number of politicians and others had applied for the position and the selection was in doubt for some time." Mr. Hull will be remembered in Arizona as publisher of the Graphic at Phoenix and the Herald at Bisbee.

From Monday's Daily.

Martin Costello returned from Tucson Saturday. Mr. Costello owns heavy real estate interests in Tucson and believes in the future of the old pueblo.

Constable Doyle came over from Bisbee today augmenting the number of guests at the Hotel de Lewis by another Mexican boarder, who will remain 90 days.

The Stage Co. have purchased two more large horses from Burt Norcross. The animals are fine specimens of horseflesh and brought good figures.

The daily earnings credited to some of the large Arizona mines are as follows: United Verde, \$324,200; Bisbee, \$17,000; Clifton, \$10,000; King of Arizona, \$800.

Two patients for the hospital were brought up today from Fairbank. One suffering from paralysis and the other from a broken leg, result of an accidental injury at Naco.

The business of the Stage Co. is increasing, the large coach being now run regularly. This is an indication of Tombstone's gradual rise in number of new arrivals.

They are killing rats over at Pasadena of such huge dimensions that there is some talk of capturing as many as possible, and using them for pack animals in the mountains.

Martin Costello says that he never knows anything about his business until he reads the newspapers. The Tucson Post serves that's what a man gets for being rich. However, The Post would gladly take his money and accept his troubles.

The board of equalization have finished their labors until August 1st. Those taxpayers whose property has been raised and the names of others who have not appeared will be published later. August 1st, will be the final date when any complaints may be registered.

Capt J. N. Thacker, Detective for the Wells, Fargo express company came to the city yesterday. Billy Stiles also came to town, and visited his friends. Stiles is now working for Wells, Fargo under the direction of Capt Thacker.—Tucson Post.

A beautiful display of petrified wood and old Chief Geronimo, a native son of Arizona, are the only products of the Territory on exhibition at Buffalo. The Yuma Sun thinks a few Gila monsters, rattlesnakes and horned toads should be added to the exhibit. The balance of the resources of Arizona have already been sufficiently advertised.

"Once again has Mark Twain's 'jumping frog of Calaveras' been left in the shade. At Albany, Mo., several children were feeding a pet frog some pieces of dynamite in the cellar of their home, when a large tool chest fell on the frog, exploding the dynamite it had swallowed, killing one child, seriously injuring two other people and wrecking the house. Now, wouldn't that story jar any one—even Joe Mulhatten?"

Joe Bignon of Pearce, has received his patent from the U. S. for the "Bignon Tract," on which a part of the town of Pearce is situated. He has had surveyor Rockfellow survey and plat a part of his quarter section, so is now prepared to sell lots and give a good title. Robinson & Gibson have been retained to adjust with those who have improvements on the Bignon Tract.

Superintendent Parnell of the Old Dominion at Globe is said to have tendered his resignation. A report says that the Old Dominion management contemplates an expenditure of upwards of \$1,000 on the mine and plant, which expenditure is expected to place the property in the front rank of copper producers. The expenditure will be made without the issue of treasury stock.

A Georgia coroner's jury brought in the following verdict recently. "The deceased came to his death from a railroad in the hands of a receiver and the same is manslaughter in the first degree."—Ex.

From Tuesday's Issue.

It is now an easy matter to understand why it is called "mean" temperature.

The government weather reports from all portions of Arizona show that cattle are in good condition considering the extent of the period of drought.

Tombstone is visited by a little sprinkle of rain every afternoon and evening. This is a forerunner of heavy rains yet to come.

At 1,200 feet the Fortuna vein near Yuma has been recovered. The vein had been lost at 900 feet over a year ago.

Alexander Casey, of Tombstone, this week let the contract to build a two-story residence on South Stone avenue. It will cost \$5,000.—Tucson Post.

There are three well boring machines in operation in Benson, and the fourth one will be put to work in a few days.

Mr. and Mrs. J. H. Parkins of Tarpon Springs Florida, are Tombstone visitors. They are here looking up the property interests of the Safford estate in Tombstone.

Wm. H. Trelease a former Tombstone being for years a machinist in the employ of the T. M. & M. Co., is a visitor to his old stamping ground and shaking hands with old acquaintances and friends.

The Bulletin says, the Morenci sports came out away ahead on the ball game between Clifton and Morenci played at the former place on the fourth of July. It is now known that those who backed the Clifton team lost over \$5,000.

The Southern Pacific survey party are now in Naco, having run a line from Cochise through Tombstone to Naco. Tombstone may yet hear the toot of the locomotive before we know it.

Plans are contemplated for the establishing of a large summer hotel in the Huachuclas. The Huachuclas are an ideal summer resort and such a hotel would attract attention from all health and pleasure seekers from all parts of the southwest.

Constable Doyle of Bisbee, came in today from Ramsey canyon, where his family are enjoying the mountain breeze of Cochise's natural summer resort. Quite a number of families are at present rusticated in the Huachuclas during the summer.

CARD OF THANKS.

I desire by this means to extend my heartfelt thanks to the many friends who by their kind assistance ministered to the wants of my wife while sick and for many favors and courtesies conferred on the occasion of her death. Also to all who by words of sympathy lightened the burdens of my sorrow.

JOHN GEHL.

OFFICIAL PROCEEDINGS

Minutes of the Board of Supervisors Cochise County

Tombstone, July 20th, 1901.
Board of Supervisors met pursuant to adjournment of meeting July 19th, 1901, at 8 a. m.
